## Informed Consent for Chiropractic Care

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working for the same objective. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment. You have the right, as a patient, to be informed about the condition of your health and the recommended care and treatment to be provided so that you may make the decision whether or not to undergo chiropractic care after being advised of the known benefits, risks and alternatives.

Chiropractic is a science and art which concerns itself with the relationship between structure (primarily the spine) and function (primarily the nervous system) as that relationship may affect the restoration and preservation of health. Health is a state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

One disturbance to the nervous system is called a vertebral subluxation. This occurs when one or more of the 24 vertebrae in the spinal column become misaligned and/or do not move properly. This causes alteration of nerve function and interference to the nervous system. This may result in pain and dysfunction or may be entirely asymptomatic.

Subluxations are corrected and/or reduced by an adjustment. An adjustment is the specific application of forces to correct and/or reduce vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine. Adjustments are done by hand in this office.

If during the course of care we encounter non-chiropractic or unusual findings, we will advise you of those findings and recommend that you seek the services of another health care provider.

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction. The benefits, risks and alternatives of chiropractic care have been explained to me to my satisfaction. I have read and fully understand the above statements and therefore accept chiropractic care on this basis.

## Terms of Acceptance

In order to provide for the most effective healing environment, most effective application of chiropractic procedures, and the strongest possible doctor-patient relationship, it is our wish to provide each patient with a set of parameters and declarations that will facilitate the goal of optimum health through chiropractic.

To that end, we ask that you acknowledge the following point regarding chiropractic care and the services that are offered through this clinic:

- A. Chiropractic is a very specific science, authorized by law to address spinal health concerns and needs. Chiropractic is a separate and distinct science, art and practice. It is not the practice of medicine.
- B. Chiropractic seeks to maximize the inherent healing power of the human body by restoring normal nerve functions through the adjustment of spinal subluxation(s). Subluxations are deviations from normal spinal structures and configurations that interfere with normal nerve processes.
- C. The chiropractic adjustment process, as defined in the law of this jurisdiction, involves the application of a specific directional thrust to a region or regions of the spine with the specific intent of re-positioning misaligned spinal segments. This is a safe, effective procedure applied over one million times each day doctors of chiropractic in the United States alone.
- D. A thorough chiropractic examination and evaluation is part of the standard chiropractic procedure. The goal of this process is to identify any spinal health problems and chiropractic needs. If during this process, any condition or question outside the scope of chiropractic is identified, you will receive a prompt referral to an appropriate provider or specialist, according to the initial indications of the need.
- E. Chiropractic does not seek to replace or compete with your medical, dental or other type(s) of health professionals. They retain responsibility for care and management of medical conditions. We do not offer advice regarding treatment prescribed by others.
- F. Your compliance with care plans, home and self-care, etc., is essential to maximum healing and optimal health through chiropractic.
- G. We invite you to speak frankly to the doctor on any matter related to your care at this facility, its nature, duration, or cost, in what we work to maintain as a supporting, open environment.

By my signature below, I have read and fully understand the above statements.

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my satisfaction. I therefore accept chiropractic care on this basis.
